

COMPLEMENTARY FEED FOR GUINEA PIG

Tommy the Farmer Guinea Pig has a nutritional composition adapted to the needs of guinea pigs of all ages. The feed has a proper dietary balance between energy and protein, as well as a high content of the fibre for healthy gut function and good dental health. Vitamins C and E are important for overall guinea pig health. Fructo-oligosaccharides from beet pulp for digestion and with beta-glucans for overall guinea pig health.

Analytical constituents: Protein 14%, crude fat 4%, crude fibre 22%, crude ash 6.5%, calcium 0.95%, phosphorous 0.5%, sodium 0.2%.

Additives per kg: **Vitamins:** Vitamin A (3a672a) 12,000 IU, Vitamin D3 (3a671) 1200 IU, Vitamin E (3a700) 200 IU, Vitamin C (3a312) 500 mg. **Trace elements:** Copper (3b405, copper sulphate pentahydrate) 18 mg, Selenium (3b801, sodium selenite) 0.3 mg, Zinc (3b605, zinc oxide) 75 mg, Iron (3b103, ferrous sulphate monohydrate) 80 mg, Iodine (3b202, calcium iodate anhydrous) 0.5 mg, Manganese (3b502, manganese oxide) 50 mg. **Amino acids:** DL-Methionine 2000 mg.

Composition: Alfalfa flour, beet pulp, wheat bran, pea hulls, soy flour, oats, molasses, lignin/cellulose, soybean oil, monocalcium phosphate, sodium chloride, fructo-oligosaccharides (0.2%), beta-glucans from yeast (0.06%).

Feeding guidelines: Give approx. 20-40 grams of Tommy the Farmer Guinea Pig per day. The recommended feed amount can be given once a day or divided into two meals per day. Monitor the guinea pig's daily intake and adjust the daily feed amount accordingly. If you are not sure about the guinea pig's weight and development, contact your veterinarian for advice. Remember that the guinea pig should have constant access to high-quality hay, and constant access to fresh, clean water. The feed should be stored in a cool, dry place in a tightly closed bag or container.
